

Our Climate Reality

Make Your **Choice** Heard and **Reclaim** Our **Future**

Friday, November 16, 2018
7:30 PM

St. John's United Church
11 Guelph Street, Georgetown

With glaciers melting, seas rising, and extreme weather events, we know humanity must change and act boldly to solve the climate crisis.

The good news is that we know we can. Solar, wind, and other renewable solutions are becoming more affordable every year. And all around the world, countries are working to cut emissions under the Paris Agreement to create a safe, sustainable, and prosperous future powered by clean energy.

Join **Janel Bascom**, OCT, and **Stephen Lipka**, M.Sc. for an evening of inspiration and hope as they share their perspectives on the climate crisis and the solutions available to all of us.

As recent graduates of Al Gore's Climate Reality Leadership Project, they have the latest data as well as insight into the IPCC's latest 12-year horizon.

Come to connect with other engaged citizens and to learn about steps you can take to help arrest climate change! This is a **free** event.

WE **MUST** CHANGE. WE **CAN** CHANGE. WE **WILL** CHANGE.
